Bengaluru, Karnataka | +91 9XXXXXXX | aniket.k@email.com | linkedin.com/in/aniketkulkarni

---

## Professional Summary

- Experience developing backend services using Java and Spring Boot
- Strong understanding of object-oriented programming and REST APIs
- Built and tested applications backed by relational databases
- Engineering background with structured problem-solving approach

## Core Skill

1. Languages: Java, Python
2. Frameworks: Spring Boot, Hibernate
3. Databases: MySQL
4. Tools: Git, Postman, IntelliJ IDEA
5. Concepts: OOP, REST APIs, Data Structures

## Projects and Relevant Experience

### 1. Employee Leave Management System

**Mar 2024 – Jun 2024**

- Developed REST APIs using Java and Spring Boot
- Designed MySQL database schema and implemented CRUD operations
- Tested APIs using Postman and handled validation and exceptions

### 2. Issue Tracking Application

**Mar 2024 – Jun 2024**

- Built backend services for ticket creation and status tracking
- Implemented role-based access and basic authentication
- Used Hibernate for database interaction

## Professional Experience

### Production Engineer – Tata AutoComp Systems, Pune

**Jul 2018 – Feb 2024**

- Analysed production data to identify efficiency gaps
- Automated routine reports using Python scripts
- Coordinated with cross-functional teams to resolve issues

## Education

### B.E. in Mechanical Engineering

**Savitribai Phule Pune University | 2018**

## **Certification**

- Java Backend Development – Udemy | 2024
- SQL for Developers – Coursera | 2024
